## ULTIMATUM TO SPAIN.

Terms of This Country Must Be Accepted or Rejected Instantly.

MUST BE NO HAGGLING.

Unless Spain Instructs French Ambassador, Cambon, to Agree At Once All Negotiations Are Off And the War Will Continue—Long Feels Hopeful.

Scripps-McRae League Telegram. Washington, Aug. 10, (3 p. m.)—Ambassador Cambon, it is earned from official source, is instructed to tell the Madrid government that the terms of protocol must be accepted or rejected immediately. It is in the nature of an ultimatum and unless Cambon is instructed to agree, all negotiations are off.

Scripps-McRae League. Washington, D. C., Aug. 10.—Absolute silence is maintained this morning by every member of the administration in regard to the status of the peace negotiations, as affected by the conference with the president, Secretary Day and the French ambassador, yesterday, and the day after yesterday. No official statement can be secured, as all agreed to remain silent.

Scripps-McRae League. Washington, D. C., Aug. 10.—Your correspondent is able to state on authority that Spain has accepted in a general way the peace terms of the United States, and has not formally asked any changes. Acting for the Spanish government, Cambon, however, presented a letter with instructions, asking for certain assurances in advance of certain constructions on the terms so that there may be a complete understanding before the protocol is signed.

Secretary Long Says Matter will be Settled.

Scripps-McRae League. Washington, August 10.—Secretary Long, after visiting the president, was asked if peace would come today. He said: "I think not, but the matter will be settled one way or the other tomorrow." At his office a few hours later Secretary Day said a statement would probably be issued at 6 o'clock with substance of peace negotiations.

## SPANISH SOLDIERS PILE UP THEIR ARMS.

Formal Surrender of Guantanamo and Caimenera With Stacks of Ammunition.

Scripps-McRae League. Santiago, Aug. 10.—On Monday the formal surrender of Guantanamo, Caimenera and the block houses in the vicinity was completed. The Spanish soldiers marched out, piling up arms as they did so. There were no other ceremonies. General Ewers represented the United States. He got 6,000 rifles and 2,000,000 rounds of ammunition.

## ELLA WILCOX TELLS OF THE HOBSON KISS.

What Hobson Got, What It Meant to Him And to the Girl Who Gave It.

Scripps-McRae League. New York, August 10.—The New York World wired Ella Wheeler Wilcox, of poems of passion fame, for something about the Hobson kiss exploit. It received this: "The young woman who kissed Mr. Hobson saluted heroism. She would have done the same had the hero been a heroine. She forgot sex in sentiment. It is doubtful if Mr. Hobson was equally forgetful. He, no doubt, forgot that he was a hero and remembered that he was a man. At that moment it is to be questioned if he remembered the Maine. He will assuredly remember the girl. To some women a kiss is the highest expression of regard. It is the royal seal of queen woman's approval, whether it falls on a kitten or a conqueror. While the woman who asked the privilege of kissing Mr. Hobson is to be congratulated for her achievement, the woman whom Mr. Hobson will ask the privilege of kissing will be an object of greater interest. That will be quite another story and quite another kiss. ELLA WHEELER WILCOX."

Scripps-McRae League Telegram. Lincoln, Neb., August 10.—Judge Howard, of Nebraska City, was today nominated by acclamation by the Republicans for governor.

## Chickamauga Camp will Remain Intact.

Scripps-McRae League Telegram. Chattanooga, August 10.—Preparations are being made to move the camps at Chickamauga to Walden's Ridge and other high places for a few weeks' vacation. General Breckenridge places no credit in the report that Chickamauga camp will be broken up. The government today let contracts for \$5000 worth of new buildings.

Scripps-McRae League. New York, August 10.—A World Manila special says that fire prevailed in the bunkers of the transport Morgan City several days before she reached the Philippines. The flames did not reach a dangerous stage and the troops were not told of it until they landed.

## GOVERNOR AT OMAHA.

Exposition City Paper Says His Name Is Hogan By Rights.

Omaha World-Herald. Oklahoma is a young country. That is to say, Governor of Oklahoma is here in a territory which is much the same thing, but the governor of a territory young, prosperous and alive with the energy that is perhaps too much of a memory in some of the older states of the middle west. With the governor are J. C. Post, president of the Bank of Kingfisher and president of the Oklahoma commission; John Golobie of Guthrie, newspaper man, secretary of the commission and manager in charge of the Oklahoma exhibit; and A. J. Riley, one of the commissioners and a leading citizen of the territory. Governor Barnes of Oklahoma may look a bit like Colonel Sellers, but he is a modest and affable gentleman. His name would be Hogan by rights; his grandfather, who was a postmaster in the navy, had not fallen overboard and been drowned north, nor east of north. But that, of course, is another story.

The governor and the commissioner are here to see that Oklahoma is properly represented. They do not in any way upon the good things that thrive in that "delightful province of the sun." They are going to bring those good things here, so that all may judge the exhibit is not yet fully installed, but will be in a few days.

"If we find anything wanting," said a member of the party Tuesday night at the Murray, "we'll go back to Oklahoma and send it on. We're still in possession of a comfortable portion of the funds contributed by the people from all over the state. It is not a gasconade to say that equals the Chicago exposition. The government of the territory a few years ago at the exposition is to be congratulated. That was the date when the strip was opened up. On that day of this year we will return, and with us will come everybody in the territory and his children. We're coming with a brass band. The governor and his staff will be in the line of military sweep through you. The governor is all this was true. He said he had seen the exposition, and he was impressed by the power of the war. That was formerly a citizen of Omaha, and is a brother of Judge Post, late chief justice of Nebraska.

## CUDAHY OUT OF DEBT.

The Chicago Operator Has Paid \$2,000,000 of Debts in Five Years and Has a Good Margin.

Scripps-McRae League. Chicago, August 10.—John Cudahy has recovered the fortune he lost five years ago on the board of trade. He has paid in that time \$2,000,000 in debts. It was in August of 1893 he was caught "long" on pork, the panic preventing banks and friends coming to his assistance. Now he has paid all claims and is rich again.

When Mr. Cudahy walked out of the board of trade five years ago his wealthy brother, Michael, handed him a check for \$100,000, saying: "John, take that and use it." John Cudahy has used the money with remarkable sagacity. The report is that he is not only out of debt, but making money by thousands of dollars in board of trade speculation, in the packing business and transportation enterprises in Alaska. A prominent broker said of Cudahy's success: "Cudahy has displayed a commercial keenness as rare as it is remarkable. His native resources are practically inexhaustible and his nerve has never been surpassed in this city. He made lots of money selling pork short last year at the time the Mont real syndicate was supposed to have the product cornered. He was bullish on wheat during the latter campaign. He made money on the long side, and then became short to his large profit."

Serious Charge Against a City Official. Deputy Sheriff Charles Carpenter was called to West Guthrie last night to arrest Sidewalk Inspector Ross, who is charged with making a criminal assault on the person of Mrs. Mary Springfield, of Kansas. It is alleged that Ross induced the woman to take a ride with him and then accomplished his purpose. Ross denies the charge in toto.

## Honors of the Dublin Gallery.

The honor of the Dublin gallery has long been proverbial. Macready, in his "Reminiscences," relates that on one occasion when playing Otway's "Venice Preserved," Jaffier's long and rather drowsy dying speech was interrupted by one of the gallery, in a tone of great impatience, calling out very loudly, "Ah, now die at once!" to which another from the other side immediately replied, "Be quiet, you blackguard," then turning with a patronizing tone to the lingering Jaffier, "Take your

## LURED TO AN AMBUSH.

Spaniards Show Surprising Energy at Guyamo.

FOUR AMERICANS WOUNDED.

Fourth Ohio Volunteers Participate in a Lively Skirmish—Enemy Sent Scattering by Well-Directed Shots from Dynamite Guns—Miles' Troops Will Have Some Fighting Yet.

Scripps-McRae League Telegram. Guyamo, Porto Rico, August 8, via St. Thomas, August 10.—There was a lively skirmish five miles beyond Guyamo this afternoon in which five of the Fourth Ohio volunteers were wounded. They were caught in an ambush but stood their ground until reinforcements arrived with a dynamite gun and drove the Spaniards to the woods. The Americans then returned to Guyamo for the night.

Two companies of the Fourth Ohio had been sent forward to ascertain if the road had been mined on the way to Cayey. When attacked a courier was sent back who reported that the troops were being annihilated. A strong force immediately hurried forward and the Americans advanced. Their comrades arrived. The Spaniards opened a fire from a block-house, but three dynamite charges threw them into a panic and they ran in disorder. It is evident that the Spaniards expect to try to prevent the advance of the Americans. The natives report heavy entrenchments of infantry, cavalry and artillery a few miles from Guyamo.

## SPAIN EXPECTS WAR TO END THIS WEEK.

She Wan's the Cuban Debt Forced Upon the Island Republic—How Madrid Feels About Peace Terms.

Scripps-McRae League. Madrid, August 7, via Barcelona, August 8; New York cable delay, August 10.—Premier Sagasta communicated to the queen regent today the result of his conferences with the party chiefs and generals, who had no other feasible plan to suggest.

Then, having obtained her consent to it, he called a council of ministers this evening, at which a definite reply to the peace demands was drawn up and approved.

This reply accepts the preliminary conditions required by American government for the official opening of further negotiations upon the details of a treaty, which will be discussed by the two governments directly concerned without the assistance of French diplomacy and by a mixed commission which will meet in Paris after the middle of August.

It is the impression in official circles here that hostilities will be suspended next week.

Indeed, I am able to state that the Spanish government and the members of the French embassy in Madrid expect that the negotiations will be sufficiently advanced by Sunday to admit of the prompt suspension of hostilities, the two governments having finally agreed upon all the main points necessary for the negotiation of a treaty.

The second stage of the negotiations—that on account of the Philippines—may be protracted until September.

Premier Sagasta's position seems to have been much improved by his clever consultations, having proved that the opposition leaders had nothing practical to suggest in order to continue the war or to secure peace terms, the only two cases in which he was disposed to retire, as he told the queen.

But the Spanish government is annoyed because the Madrid press points out that many of the high personages consulted by the premier did not conceal that they would prefer to place the peace negotiations in the hands of a stronger government, even one taken from the liberal ranks, and that the majority of those personages, outside of the generals, advocated the convoking the Cortes at the earliest date possible, in order to ventilate in Parliament the delicate question of responsibility for the present situation and for the war.

## Carlos is Marching to Spain.

Scripps-McRae League. London, August 10.—The Soir, of Brussels, in a dispatch from Barcelona, at recent meetings the Carlists have decided to act immediately and orders were issued for the Carlists to assemble. Don Carlos will probably enter Spain Monday or Tuesday next. The story is doubted here.

## SAMPSON AND SCHLEY PROMOTED.

Both Are Made Rear Admirals—Capt. Clark Goes Up a Notch And Wainwright Highly Honored.

Scripps-McRae League. Washington, August 10.—The president this afternoon decided upon rewards for naval officers in the Santiago harbor fight. Sampson was promoted eight numbers; Schley six, and both are made rear admirals. Capt. Clark is given one more number than the other captains, and Lieutenant Commander Wainwright goes up more numbers than any other officer.
